UX RESEARCH · PROJECT 1 · USER PERSONA

AW

Ahmed Wasi

26 years old | Junior software engineer

ABOUT

Sits at a screen nine hours a day and orders dinner after late deadlines. Wants to feel fitter but treats exercise as something for later.

GOALS

- Have energy that lasts the workday
- Lose a few kilos without a gym schedule
- Build a routine that survives busy weeks

FRUSTRATIONS

- Workouts feel too long to even start
- Quit three fitness apps within weeks
- Feels judged in crowded gyms

IN THEIR WORDS

"I'll start on Monday. Every week."
